

CLIENT ACCOUNTING SERVICES

Your growing business needs personal attention, unique to you and your business needs. At Dixon Hughes, we can help make your schedule less hectic by providing accurate and timely services at competitive prices.

Accounting Software

Many businesses have an internal accountant who uses Quickbooks® or other similar products to record transactions. We have professionals who are skilled and knowledgeable in the application of various types of accounting software, and they can help you with many tasks, including:

- Installation of accounting software
- Assisting with company setup
- Providing staff training
- Making return visits to resolve problems with software
- Helping with payroll setup, processing and reports
- Reconciliation of accounts
- Helping with the printing of financial statements
- Providing guidance with due dates of payroll reports and tax returns

If you would like our assistance with your financial statements, payroll reports or monthly, quarterly or annual bookkeeping, we would be pleased to help you. Our professionals will work closely with you, streamlining your information to help eliminate errors so that we may offer the best service at an affordable price.
